## WEATHER FORECAST

INDICATIONS ARE THAT THE  
WEATHER WILL BE GENERAL-  
LY FAIR TONIGHT AND SUN-  
DAY; NOT MUCH CHANGE IN  
TEMPERATURE.

## MADERO IS SUPPORTED

Men Who Distrusted  
Him Now Are His  
Advocates

Tehuacan, Puebla, Mexico, Aug. 5.—Francisco I. Madero today was assured by a committee from the capital that they would support him for the presidency and that all should do so.

Madero supporters, disgruntled because he had failed to save Emilio Vasquez Gomez, and because he appeared too friendly with General Derrado Reyes, both now candidates, had sent the committee to subject Madero to the direct test of questions and answers. The committee included a delegation from the palace and another representing the men who had fought in the revolution. This delegation was headed by General Candido Navarro.

"Do you recognize only the new party you have formed?" was the substance of the first question.

In effect Madero assured them that he did, explaining that there was no further need for a club styling itself anti-revolutionist whose sphere was merely local.

"Do you propose to bar General Reyes absolutely from all public service?" he was asked.

He refused to bind himself by any pledges.

The committee then wanted to know if it were true that Madero had brought about the dismissal of Minister Vasquez, and if so, would he bring about his restoration.

Madero assured them that he had not done so, but that he was in thorough accord with the president for having done so.

In effect Madero assured them that he did, explaining that there was no further need for a club styling itself anti-revolutionist whose sphere was merely local.

Madero assured them that he had not done so, but that he was in thorough accord with the president for having done so.

## FENCING IN HIS HOUSE

New Yorker Who Aims  
to Obtain Privacy by  
a Big Brick Wall

New York, Aug. 5.—Plans for a fence 150 feet high have been filed with the New York city building department by F. M. Francollina, wealthy banker, who expects to maintain a privacy in his uptown residence, despite the encroachments of apartment houses in the neighborhood.

"I learned a few days ago," said the banker, in explaining his scheme, "that a nine-story apartment house was going up shortly on the lot to the west of my house. I decided to build a wall to the east. I decided to protect the privacy of my home, which my family has occupied for more than seven years, and there was no other way that I could conceive but a fence high enough to shut off all the curious eyes of my apartment house neighbors."

The fence will be of ornamental brick and as artistic as possible under the circumstances.

## STEEL IS ONE BRIGHT SPOT

In the Business and  
Financial Outlook of  
the Country

New York, Aug. 5.—The reactionary trend which overtook the stock market at the inception of the Moroccan difficulty was continued during the present week with resultant losses throughout the list. The decline, however, was not so much due to the foreign situation as to affairs at home.

Domestic conditions—industrial, political and agricultural—militated against a maintenance of the admittedly high level for securities, and the bull accounts here evidence of having gone stale. Cotton alone at this time fulfills its earlier promise of a large yield, and the re-entrance into that market of an erstwhile prominent operator was the signal for a sharp advance in option later in the week.

The state of textile trade continues adverse, as is shown in the definite shutdown of a large print mill in Massachusetts and a further curtailment in North Carolina.

Improvement is reported in steel and iron with the outlook even more favorable. Money remains fairly easy with some hardening of rates for commercial paper.

London, Aug. 5.—The progress of the veto bill towards the crises next week, is now coming into clearer light.

Viscount Morley today published a list of 76 liberals, peers who have promised to support the government in passing the measure.

A meeting today of unionist peers who favor supporting the government presided over by Viscount St. Aldwyn, formerly Sir Michael Hicks-Beach, decided that it would not be advisable to take organized action in voting, but to leave each peer to act on his own discretion. This may add ten or more votes to the government strength, making 85 to 90 in favor of the measure. The only list of names which followers of the Earl of Halsbury have published gives 68, indicating a majority of between ten and twenty for the measure.

The insurgents held crowded meetings tonight at Holborn and Chelsea, at which the Earl of Halsbury, the Earl of Selborne, Viscount Chamberlain and Sir Charles Wyndham denounced the government for what they termed revolutionary proceedings in dragging King George into the mire of politics at the behest of John Redmond, the Irish leader. Resolutions pledging a "no surrender" policy were carried amid scenes of intense enthusiasm.

Cananea, Mexico, Aug. 5.—Colonel W. C. Greene, the former copper magnate, died at 5 o'clock this morning, of pneumonia, which developed as a result of injuries he sustained in a runaway accident here last Monday.

Death came to Colonel Greene shortly after the arrival of a corps of physicians and nurses, rushed here by special train and automobiles from El Paso. They brought supplies of oxygen and spent the last few hours striving to stave off the end, but the stricken man never rallied, and passed away in the presence of his wife and children, who had been constantly at his bedside.

Last Monday Colonel Greene was thrown from his carriage when his team ran away. His collarbone and two of his ribs were fractured. On Thursday the acute pneumonia conditions developed in his lungs and a summons was sent to El Paso for physicians and nurses.

The doctors boarded a special train which arrived last night at Naco, Ariz., after a record-breaking trip from El Paso. At Naco the party, carrying tanks of oxygen, took automobiles and spent the night in the sixty miles of desert to Cananea in the dead of night. The physicians exercised all their skill, but the patient failed to rally.

Colonel Greene was one of the most picturesque figures of the group of copper men who have operated in the southwest, because of his meteoric rise from the position of a penniless prospector to directing genius of the Cananea copper camp. From the time he assumed ownership here until he encountered reverses in the panic year of 1907 Greene was one of the dominant figures in the copper industry.

He was born in New York in 1851. When he was 17 years old he came west and, after a period of prospecting, became a rancher in Arizona. It was as a farmer that he made the "stake" that enabled him to purchase

(Continued on Page Seven.)

SIX BONDS ARE SEVERED.

Salt Lake, Aug. 5.—One interlocutory and two final decrees of divorce were granted yesterday by Judge M. L. Ritchie in the Third district court.

Final decrees were given Mary Corbin from Millard C. Corbin; Marie Schroeder from Henry T. Schroeder; Effie G. Davis from James H. Davis; Elizabeth C. Stocking from Frank H. Stocking; J. H. Woodward from Eva Woodward. The interlocutory decrees
